WINE LIST

WINE LIST: Spring/Summer 2026

Welcome to Paladar! Our wine list has more than 60 wines sourced exclusively from the length and breadth of Latin America.

Most of the wines are from Argentina, Chile and Uruguay, but we have also uncovered gems from countries not best known for wine production, like Mexico and Peru... and a couple of excellent wines from Ecuador - a real surprise!

Along with these, we showcase some great wines from Brazil and less well-known regions of Argentina - Salta, Patagonia, La Rioja and San Juan - along with Chilean valleys, such as Itata, Malleco and Elqui.

The list encompasses a wide range of different wine styles and grape varieties - some of which you may not have heard of, including César Noir, Grüner Veltliner, Petit/Gros Manseng, Marselan and Arinarnoa.

We particularly encourage you to try the region's "Criolla" varieties. These are the offspring of the original grape varieties that the Spanish Conquistadors took across the Atlantic in the 16th Century. Born in South America with fascinating grape names like Quebranta, Torrontés Criolla Grande and Moscatel Rosado, the wines are best served slightly chilled. We have highlighted these, and their "parent" varieties.

Bargain hunters need look no further than the the "Bin Ends" pages where we are discounting those wines being de-listed.

Our "By the Glass" selection includes a number of more offbeat options - including some Criollas and a lovely Uruguayan Marselan. As far as possible, we are keeping wines by the glass at less than £10 each (and hope you can enjoy more than one!)

We continue working towards a "Lower and Lighter" theme: Lower in price and alcohol and Lighter in style and bottle weight. For some time now, we have been selecting wines that are not in unnecessarily heavy bottles - being firm believers in the motto "its what's in the bottle that counts"! All wines of 12%ABV and less as "Lower Alcohol" and we even have them as low as 8.5-9.5%

Be bold and adventurous... We encourage you to discover the diversity of Latin American wines!

**ALL OUR WINES ARE AVAILABLE FOR RETAIL SALE AT 50% OF THE DRINK-IN PRICE IN THE BODEGA
THERE IS A FURTHER 20% DISCOUNT IF YOU BUY ANY SIX WINES AS A CASE**

The Criollas - Latin America's "indigenous" grape varieties

It was the Spanish Conquistadors that first brought vines and winemaking to Latin America. In the 16th Century they took three grape varieties - **Listán Prieto**, **Muscat of Alexandria** and **Negramoll** - across the Atlantic via the Canary Islands.

These relatively hardy vines were planted widely in what are now Mexico, Peru, Bolivia, Chile and Argentina during the 16th and 17th centuries and were used to make wine for the communion and for general drinking.

Over time these varieties crossed naturally to create new grape varieties that are not found anywhere else in the world. Criolla is a term relating to anything of Spanish descent that was born or created in Latin America - including people, food, music, dance... and grape varieties.

Torrentés, **Quebranta**, **Pedro Giménez**, **Criolla Grande**, **Moscatel Rosado** and **Cereza** may not be the best-known wine-making grapes. However, along with the original three "parent varieties" there are now some super wines being made to high standards by both young and more established winemakers - often with minimal intervention - creating lovely wines that are uniquely Latin American.

Criolla Suggestions from our list

New on the list this summer is a fresh and easy drinking Pedro Ximenez (the South American criolla variety - not to be confused with the Spanish variety often used to make sweet wines). This buzzy little number from Vina Falernia is grown in Chile's Elqui Valley and is available by the glass.

Also available by the glass this summer is Agustín Lanús's, Sunal Ilógico **Criolla Chica** (the Argentine name for **Listán Prieto**). Using grapes from small, remote vineyards at up to 2,700m altitude and fermented with natural yeasts this is a really top-class example of the grape variety. Don't miss the opportunity to try this super red!

We also have two excellent Naranja (orange) wines on the list - both made from criolla varieties. Matias Morcos's delicious Moscatel Rosado from Eastern Mendoza is available by the glass and is our top pick - and also available by the glass.

For a great example of a high altitude **Torrontés** - perhaps the best-known of the Criolla varieties - look no further than our Kaiken from Salta in Northern Argentina. This is a lovely fresh white: floral without being overly flowery.

In the remote Calingasta Valley, in Argentina's San Juan province, there has been a remarkable project unfolding, with the rehabilitation of ancient vineyards. Cara Sur is a natural wine project headed up by Sebastian Zuccardi (of the Zuccardi wine family). The **Pergolas Criollas Blancas** and Finca Maggio **Moscatel Tinto** are not cheap, we admit, but so worth it...

Maturana Wines in Chile has rediscovered some old plantings of **Negramoll** (also known as **San Francisco**) in the Loncomilla Valley in southern Chile. 'Negra' is a refreshing red and is your chance to try a well-made example of this rare grape variety!

In Chile, **Listán Prieto** is known as **País** - and we list Pero Parra's Vinista 100% **País** from Itata. this fine wine is perfect for curious oenophiles!

The Spring/Summer 2026 Criolla line-up at Paladar

We have noted all Criolla wines as such on the list. We generally recommend that the red Criolla wines are served slightly chilled.

Lower and Lighter

We continue to work towards a "Lower and Lighter" theme and are now listing more wines that are: 1) Lower in price and in alcohol and 2) Lighter in style and in bottle weight.

Traditionally, many wines from South America have been high in alcohol - often 14% or more - while the more expensive reds were often put into unnecessarily large and heavy bottles to make them appear more impressive. We have even found wines where the bottle itself weighs more than the contents! This is extremely bad practice from a sustainability perspective, using much more glass than necessary. On top of this, having to ship extremely heavy cases of wine on lorries and ships adds to an even larger carbon footprint.

For many years, we have generally chosen not to list wines in overly heavy bottles. We believe it is what is inside the bottle that counts, and this has been borne out in our blind tastings - the price, label and bottle size/weight do not necessarily correlate with the quality of the contents. Whenever we talk to winemakers we raise this subject, and gradually mindsets are changing.

Our cuisine does not really call for a long list of heavy red wines, and we have always shied away from this, choosing, instead, to have a wide variety of different styles and colours. In response to requests for more lower alcohol wines, we now list more than a dozen wines with 12% alcohol or less - and several at 10% or less. Most of the lower alcohol wines are whites, but we also have a 12% orange wine, a 10% rosé and (remarkably) a 9.5% red.

WHITE WINES

				75cl Bottle
Viña Alto Roble, Santa Alba	Chardonnay Central Valley, Chile 12% ABV <i>A clean and well-made unoaked Chardonnay with hints of peach and floral notes on the nose. The palate is clean and well-rounded. Notes of exotic fruit lead on to a satisfying finish. Vegan.</i>	Lower Alcohol	2024	38

Viña Falernia, Elki	Pedro Ximenez Elqui Valley, Chile 13% ABV <i>Not to be confused with the Spanish variety most often used to make sherry, this "PX" is a criolla variety unique to South America. This great value dry white is from one of Chile's most northerly vineyards in a semi-arid region.</i>	Criolla Variety	2023	39
Miolo, Alísios	Pinot Grigio/Riesling Seival Estate, Campanha, Brazil 11.5% ABV <i>A really popular and well-made white from vineyards in the very south of Brazil close to the border with Uruguay. Wines with Altitude!

The Andes Mountains form a dramatic backdrop to many vineyards in both Chile and Argentina. Some of the best-known vineyards and wineries are found in valleys in the foothills of this astonishing mountain range which runs thousands of kilometres from the southern tip of Chile and Argentina right up the western side of the continent.

The higher altitudes (and cooler temperatures) allow cultivation of grapes outside the regular wine-growing latitudes. This gives wines an intensity and character not found from low-altitude vineyards partially due to the variation in nocturnal/diurnal temperatures and the strength of the sun at higher altitudes causing the grapes to form thicker skins.

Many vineyards in the foothills of the Andes are found between 1,000-1,500 metres above sea level, with vineyards in the upper western slopes of the Uco Valley as high as 1,700-1,800 metres.

Closer to the equator, however, in Salta (northern Argentina) and Bolivia vineyards are found at altitudes well over 2,000 metres above sea level which gives an astonishing intensity of flavour. We list several wines from the Salta and high altitude wines from the upper Elqui Valley in Chile.

WHITE WINES

				75cl Bottle
La Riojana, Santa Florentina	Pinot Gris Famatina Valley, La Rioja, Argentina 12.5% ABV <i>A fresh and food-friendly organic wine with delicate blossom notes and a citrus tang. The Famatina Valley is very fertile, but one of the poorest regions of Argentina; the Fairtrade certification ensures that the local community has access to better education and healthcare in this remote region. Vegan.</i>		2024	48
Estancia Mendoza, Land of Malbec Blanc de Malbec	Malbec Lavalle, Mendoza, Argentina 12% ABV <i>A fascinating oddity - Malbec grapes gently pressed to create a white wine "blanc de noir" style. This is from older vineyards on the deep sandy soils to the northeast of Mendoza at a relatively low 600-700m altitude.</i>	Lower Alcohol	2023	45
Proyecto Nakkal, Nakcool	Muscat Ottonel/Viognier/Ugni Blanc Canelones, Uruguay 9.9% ABV <i>This natural wine from Proyecto Nakkal exemplifies the more experimental approach being taken by many younger winemakers in Uruguay. The nose shows complex floral aromas, suggesting extended skin contact, while the voluptuous palate offers tropical fruit flavours balanced by refreshingly bright acidity. Vegan friendly.</i>	Lower Alcohol	2023	54
Bodega Norton, Finca La Colonia	Grüner Veltliner Mendoza, Argentina 12.5% ABV <i>A rare example of this Austrian grape variety grown in Argentina. Very well made, with crisp and light grapefruit and peach flavours followed by floral notes and white pepper spice. Vegan.</i>		2024	49
Longaví, Glup	Chenin Blanc Maule Valley, Chile 12% ABV <i>This wine is fermented on skins in amphoras. It has a stony mineral edge which combines well with the bright linear lemon and pear fruit. The fresh acidity compliments the purity of the fruit flavours on the palate and the wine finishes with a minty note.</i>	Lower Alcohol	2022	52
Otronia, 45 Rugientes Corte de Blancas	Gewürztraminer/Chardonnay/Pinot Grigio Chubut, Patagonia, Argentina 13% ABV <i>Otronia is the world's southernmost commercial vineyard, at parallel 45, located by the shores of Lake Musters in the heart of Patagonia. This extreme location has a very dry and windy climate. The unusual blend offers a flamboyant nose of jasmine and citrus peel while the palate is fresh and bone dry with a long, aromatic finish. Vegan & Organic.</i>		2018	46
Vallisto, Viejas Blancas	Riesling/Ugni Blanc/Sauv Blanc Cafayate, Salta, Argentina 10% ABV <i>This quirky but delicious unfiltered white is fermented in 500 litre barrels using natural yeasts. With a hint of rhubarb on the nose, this is one for the curious oenophile - only a couple of thousand bottles were produced.</i>	Lower Alcohol	2021	55

Pushing the Limits...

As the climate continues to warm and the weather becomes increasingly unpredictable, so winemakers are pushing into new and ever more extreme terroirs.

Otronia (pictured) is the world's most southerly commercial vineyard, on the 45th Parallel, in a remote location near Sarmiento in Argentine Patagonia. Winters are cold with very strong winds and the growing season is short but intense with long sunny days. Winemaker Juan Pablo Murgia is producing some incredible wines that exemplify the pure and clean, yet harsh environment. We list their delicious **Rugientes 45 Corte de Blancas** (also by the glass) - an unexpected blend of **Gewürztraminer, Chardonnay and Pinot Grigio**.

When winemakers in Mendoza's Uco Valley brag about "high altitude" wines from their vineyards at 1,000-1,500 metres above sea level, those in Salta and Jujuy provinces in northern Argentina must be chuckling. Here you can find vineyards as high as 2,500-3,200 metres (over 10,000 feet) in the Upper Calchaqui Valleys. The intensity of the wines from these altitudes is astonishing. Look out for our lovely **Bonarda** from **Bodega Colomé** along with any other wines from Salta on our list. And from the other side of the Andes, in Chile's high altitude Elqui Valley, **Viñedos de Alcohuz** is producing some superb wines - including **Grus** - a blend of **Syrah, Petite Sirah and Garnacha**.

We have also added two other wines from an unlikely location: the equator. The **Dos Hemisferios** project - almost at sea level near Guayaquil in Ecuador is producing some remarkably good wines. The vineyards are cooled by the tail-end of the Humboldt current, which creates a unique microclimate in the valley. Try the **Enigma Chardonnay** (a blend of the best grapes from the double-vintage) or the excellent **Paradoja Cabernet Sauvignon/Malbec**.

WHITE WINES

				75cl Bottle
Don Luis, Selección Reservada	Viognier Guadalupe Valley, Baja California, Mexico 13.5% ABV <i>This peachy Viognier is a delicious tribute to Don Luis Agustin Cetto, for more than fifty years of developing the LA Cetto winery to become a leading Mexican wine producer. He died in April 2022.</i>		2020	53

Natural, rustic, simple... and superb! Vegan.</i>		2022	58

Bodega Garzón, Reserva	Albariño Maldonado, Uruguay 13% ABV <i>With a cool, moist Atlantic climate Uruguay is producing some excellent Albariños. The Garzon winery is crisp, with ripe aromas of white peach and citrus fruits, good structure, and a mouth-watering finish.</i>		2024	62
Guaspari, Vale da Pedra, Branco	Sauv Blanc/Chardonnay/Viognier Sao Paulo State, Brazil 14% ABV <i>This unusual but elegant white blend offers citrus notes, grassiness and hints of unripe coffee. Stonefruit and other tropical flavours dominate on a fresh, dry palate with a mineral note and a long finish. Gusapari is a relatively new winery, set up on a former coffee plantation and has achieved almost cult status.</i>		2021	86
Dos Hemisferios, Enigma	Chardonnay San Miguel del Morro, Guayas, Ecuador 12% ABV Lower Alcohol <i>The enigma is how a low-altitude vineyard almost on the equator can produce wine as good as this! The very best grapes are selected and vinified from both vintages in the year. 30% of the wine is then aged in French oak before final blending. The nose of tropical fruits and honey leads into an elegant, complex palate.</i>		2021	88

Discover a continent of diverse wines!

Part of our mission at Paladar is to showcase the diversity of Latin American wines - not only in terms of grape varieties and styles but also in terms of the range of different wine producing countries and regions. As we say: It is more than just Malbec from Mendoza and cheap plonk from Chile! Brazil, Peru, Mexico and Ecuador all feature on our list, and we have been expanding our selection from Uruguay - a country that is very much up-and coming in terms of high-quality wine production: Definitely one to watch.

This photo shows the modern winery of **Bodega Garzón** in Maldonado, Eastern Uruguay, which is located 18Km from the Atlantic coast and just 160m above sea level. The mild maritime climate and ancient soils of Uruguay are very different to the dry, sunny, high-altitude terroir of many vineyards in Argentina and Chile. Grape varieties that thrive in this climate include **Tannat**, **Pinot Noir** and **Albariño** - and we list examples of the latter two from Garzón.

We now also list two unusual man-made red grape varieties, both artificially created in France in the 1950s/60s and both growing well in Uruguay. Look out for the **Marselan** from **Bodegones del Sur** and the **Arinarnoa** from **Bresesti**.

Some younger Uruguayan winemakers are being quite experimental: A good example of this is a super **sparkling Albariño** from **Viña Progreso**. **Serious oenophiles should try the** low-alcohol natural wine '**Nakcool**' from **Proyecto Nakkal**... And everyone should try a glass of **Pablo Fallabrino's** Alcyone - a sweet **fortified Tannat** to die for!

Chilled Light Summer Reds

With warmer weather, al fresco dining, long lazy lunches and light evenings, a crisp white may be the first thing on your mind when it comes to ordering wine. But we have some lovely light reds, which we serve slightly chilled and are definitely worth exploring...

Several of these are Criolla / Criolla Parent grape varieties -which pair beautifully with our cuisine. We are offering the amazing high altitude **Sunal Ilogico Criolla Chica** by the glass and for those who want to try something really special, the **Cara Sur Moscatel Tinto** is one of the best red criollas we have come across. True Oenophiles may like to try **Pedro Parra's Pais**, from Itata in Chile

New on the list this summer is a vibrant unoaked **Garnacha** from **El Porvenir's** "Pequeñas Fermentaciones" small-batch experimental wines. It's a very well made easy drinking red - ideal for the summer.

Also new on the list this summer the **Tayu Pinot Noir** from Malleco in southern Chile is a wine with an amazing story and well worth trying. Made by indigenous families in partnership with Viña San Pedro in a remote southern region of Chile, 'Tayu' means 'ours' in the language of the Mapuche people. This lovely Pinot Noir is the proud result of a very special winemaking endeavour.

Finally - for those looking for a low-alcohol red, our **Lorca Lo% Ancelotta/Malbec** come in at just 9.5% alcohol... so you don't have to feel bad about ordering that second bottle!

Full-bodied Reds - South America at its best!

South America is still best known for its big full-bodied reds and we showcase a diverse selection of interesting reds at moderate prices.

Malbec, of course, remains Argentina's "flagship" red. We love the intense expression from **Domingo Molina** in Salta and at a more modest price we have an excellent Fairtrade, Organic and Vegan Malbec from the Famatina Valley in La Rioja region.

But there are many more excellent red varieties to discover. We have three lovely **Syrahs** on the list: **Intipalka** is from the Ica Vally in Peru while the excellent **Pyros** is from the little-known Pedernal Valley in Argentina's San Juan province. At the top end, **Guaspari** is a relatively new winery in the hills of Sao Paulo province in Brazil. It is too wet during the summer to produce quality wine, but through a double-pruning technique they "trick" the vines into sleeping during the wet summer season and growing during the dry sunny winter months. The results are spectacular!

Chile is also producing some great reds. The **Carménère** from **Viña Arboleda** in the Aconcagua Valley is a tremendous example of this grape variety that last year celebrated its 30th year of "rediscovery" in Chile. Other super reds from Chile include **Viña Maquis**, **Lien** - led by a beautifully aromatic **Cabernet Franc** and **Viña Vik A Cabernet Sauvignon** - both are from Colchagua. Meanwhile, from the south of the country **Morandé** is producing an excellent **Carignan** from old vines in Maule. This is part of the VIGNO movement, promoting the revival of old Carignan vines in the province.

Some of these big reds are now on the Bin Ends and are a real bargain - grab them while they are still available!
